

Data Means Social Mission

To be a conduit and advocate of community improvement projects

Data Means believes that business grow must go hand in hand with our support to our communities. Data Means through his employees, clients and contacts is a conduit and advocate of community improvement projects.

We believe that:

- We should foster the will to be helpful and supportive of others in need.
- Is not difficult to help if there is the desire to be helpful.
- We all can play an important role in making a better world and contribute to make positive changes happen.

College Students Internships

- We help college students to gain meaningful professional experience through internships.

Community Outreach

- Data Means supports outreach health, education and other community projects.
- Data Means links colleges community outreach programs with business.

Data Means Social Mission

To be a conduit and advocate of community improvement projects

Developing a Business Culture in Young People

- Data Means links colleges with business and high school students.
- With the assistance of an advisory board a team will be formed to developed, structured and staff a number of projects for inner city high school students to complete, enhance and deploy via a summer program.
- The program's goal is to provide inner city eleven grade students the opportunity to work on a business project during the summer and deliver results to corporate sponsor.
- The nature of the project will be such to ensure maximum learning and delivery. Examples include:
 - Environmental Assessment or Awareness Projects.
 - Business Paper Usage and Processes
 - Car Pooling Commuting Surveys
 - Health Awareness Campaigns
 - Surveys
 - Cigarette Smoking Cessation
 - Breast Cancer
 - Market Research & Opinion polls
 - College Students and Faculty Surveys

Program Components:

Corporate Sponsor

Corporate sponsor(s) will provide financial support for students to complete work on a specific well defined, structured, project and deliver results to the sponsor

Training

Students will be trained on business culture, entrepreneurship, team work and basic skills

Coaching

Students will be assisted and guide to ensure maximum learning and completion of the project

Project Delivery

At the end of the program students will present results of their project to the business client.
